

SEWER PROGRAM

The Sewer Program is administered by the Sewer division of the Utilities Department. The program is designed to achieve five primary strategic objectives:

- 1) Replace and/or rehabilitate aging infrastructure;
- 2) Maintain or increase system reliability;
- 3) Improve system efficiency;
- 4) Address system growth; and
- 5) Regulatory compliance

The sewer utility continues to plan and invest in the future of the city by continuing to evaluate the collection system to effectively prioritize the replacement and rehabilitation programs.

PRIOR YEAR ACCOMPLISHMENTS

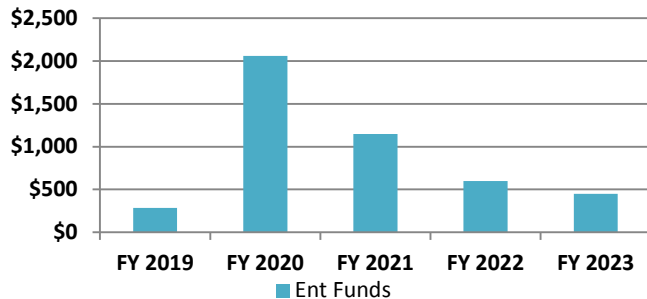

Upper Flat Branch Interceptor (S-016)

Efforts to replace the sewer main along the Upper Flat Branch Interceptor continued.

THE FIVE-YEAR PLAN (FY 2019 – FY 2023)

The FY 2019 Five-Year Capital Improvement Program (CIP) includes \$4,545,000 Enterprise Funds (Sewer and Water Funds).

In FY 2019 funding consists of a \$285,000 transfer from the Sewer Fund.

(Dollars in Thousands)
